They brought with them six native artists, who were sketched Tuesday on Ellis Island by European artists.

Those latter will construct a Malay village at the World's fair.

From Singapore, the capital of the rajah's country, he brought, together with thirty native artists, accompanied by the rajah and Mr. Lake as far as Cairo, Egypt.

From there the rajah and Mr. Lake will proceed to Carlsbad, Germany, where the rajah will be joined by his wife, the sultan's daughter, and Mr. Lake will set out for this country, arriving in New York in June.

At other times he dresses in European costume. He is in the midst of an uphill fight in his endeavor to civilize his subjects.

"An Eminent Englishman," said Mr. Lake, "is the last representative ruler of an old Malay dynasty. He is the only eastern potentate who has held his position together under his own rule by his tact and ability and through his adoption of western methods. He has ruled England five or six times, and has been decorated with the orders of the Bath, St. Michael and St. George, and he has all the highest decorations in Europe. He has only one son, and he is a very able assisted in ruling his country by my colleague here, the rajah, who lived in England for seven or eight years and can speak better English than most Englishmen."

The rajah and Mr. Lake went to Washington Wednesday and presented their credentials to the secretary of state.

Many citizens of New York are of the opinion that it would be a fitting tribute to the memory of General Grant to have the ships participating in the naval review in the Hudson river fire a salute as they pass his grave. Secretary Herbert, however, thinks that this will not be done, and that the salute of the fleet will not extend so far up the river as the park. He will, however, have the Philadelphia, after his review, and the fleet will fire a salute and fire a salute of twenty-one guns over the old commander's grave.

IN KANSAS.

Villages Strewn Over the Surrounding Country.

The Loss of Life and Property by the Storm is Tremendous.

Parker Completely Destroyed—Several Towns in Brown County Wrecked and Many Lives Lost—The Damage to Crops Will Be Very Great.

KANSAS CITY, April 13.—(Later reports bring additional details of the loss of life and property by Tuesday night's cyclone. In Kansas the area of the storm was bounded by the three towns of counties from the eastern border, nearly every county suffering more or less. Montgomery county, in the extreme southern part, suffered the most.

Parker, a hamlet ten miles south of Independence, was totally destroyed. Many houses were demolished and many others were badly wrecked. Walnut, a village in Crawford county, also in the southwestern portion of the state, suffered severely in wrecked houses, but there was no loss of life. A messenger dispatched from that place states that it is feared that the loss of life in the outlying districts has been great.

A dispatch from Hiawatha states that the storm has created great havoc throughout Brown county in the northwestern part of the state. Several towns in the county were more or less damaged, and many lives are reported lost. The cyclone struck Macleota, Kan., about 5 o'clock, going from southwest to northwest, and leaving much debris in its wake.

The towns of Willis, Everett and Pawshat were partly demolished and several people injured, though their names are unobtainable. Near Robbs, Kan., B. J. Bolton was struck by lightning and killed. At Mascooth several houses were wrecked and a Mrs. Duris and her baby were killed. It was reported that part of the cyclone which struck Walnut, Kan., continued northward, and entering Missouri, struck considerably the small towns of Mayfield, Page City and Higginsville, where, after doing considerable damage, it spent its force. At St. Joseph a cyclone working from west to east, and covering a strip of country two miles wide and five miles long, caused considerable damage. Several people were killed, among them a Mrs. Ward. Her husband was seriously injured, as was also John Shelton. An unknown woman was also killed. Most of the people saw the storm coming in time to get into the cyclone cones and escaped injury. The loss here will amount to thousands of dollars. The damage to crops over both states will be great. Fortunately, in most places in Kansas the corn had not been placed, had it been it would surely have been washed out.

A MOUNTAIN SINKS.

Geological Phenomenon in Central America—Twelve Persons Killed.

PANAMA, April 13.—La Unidad Nacional, of Popayan, Cauca, gives the following details of the sinking of a mountain ridge called Cerro de Cruz Loma, near Pueblo Quemado, situated about 115 miles from the town of Rio Hanco, and thus describes the geological phenomenon:

"For some days before prolonged subterranean sounds, a sort of hoarse rumbling and roaring, were heard, indicating that something serious was about to occur and finally the upper part of the hill suddenly caved in, the enormous quantity of earth descending to and obstructing the course of the rivers Guachibano, Molino and others. It is feared that the overflow of the rivers will occasion an extensive inundation, or that on breaking away the earth dam whole villages and valuable properties would be destroyed.

As an immediate result of this occurrence twelve persons were killed, besides a large number of horses and cattle. It seems only natural to attribute this phenomenon to the eruption of the Solara volcano, which for some time has been observed to be covered with snow-like vapor and clouds.
